### **BOOK FEE NOTICE**

Each year, we plan and allocate money from the school budget to subsidize student activities including field trips and spring trips. A book fee is charged at the beginning of the year so that parents do not have to purchase individual novels and workbooks, some of which are not available

in stores. By pre-ordering books for all students, we are able to save you money and ensure that every student has access to the texts used in class.

Our ability to fund spring trips depends greatly on the amount of book fees and spring trip fees that we are able to collect from families. A significant portion of the budget that is allocated to student activities comes from the payments we collect from students for the books that were ordered. **Due to the high volume of outstanding book fees, we are in jeopardy of not having the budget to fund spring trips.** Please make every effort possible to pay your outstanding book fee balance before the winter break.

Thank you for your attention to this matter.
