## Interested in volunteering at YES Prep?

Thank you for your interest!

To get involved feel free to take a look at a list of our campuses if you are interested in volunteering at a location near you.

### To become a volunteer:

1. Complete the [Volunteer Background Authorization Form](#) thoroughly.
2. Ensure you allow two weeks of processing as volunteers are processed only on Monday's and fingerprinting may take up to two weeks.
3. Volunteers may not be on campus unless they have been approved by the Talent Support team, after being processed and notification of fingerprinting has been sent from TxDPS.
4. Volunteers who's project is reccuring or extends beyond 30 days will need to be fingerprinted regardless of what the project is.
5. All volunteers are put through a Name-based background check. Those who's project lasts less than 30 days and does not require them to work alone with students will only require a name-based background check.
6. Volunteers who's project lasts less than 30 days and who's project requires them to work alone with students will undergo both, a name-based background check and fingerprinting.
7. Having only set an appointment for fingerprinting is not enough to be allowed on campus; a volunteer, whether name-based or fingerprinted, will need to be approved by Talent Support prior to visiting their campus. Talent Support will either notify the volunteer or their YES Prep Contact.

Receptionists are able to reference an internal spreadsheet prior to allowing volunteers access to the campus.

If you have any questions on becoming a volunteer, please reach out to [talent.support@yesprep.org](mailto:talent.support@yesprep.org).
